

New Products, LuminAID

LuminAID - PackLite 16

The LuminAID PackLite 16 Solar Light is a solar-powered, inflatable light that packs flat and inflates to create a lightweight, waterproof floating lantern. It provides up to 30 hours of consistent LED light and can be easily recharged in the sun, ideal for recreational use outdoors or in the home as an extra light source. Minimum order of 6.

LuminAID - PackLite Max

The PackLite Max introduces a 4-level charge indicator and an innovative dual charging feature. In addition to the high-efficiency solar panels, the PackLite Max can also be quickly charged through a new USB charge port (USB cord included). Four times the size of the original PackLite 12 and more than twice as powerful, the PackLite Max is the next big thing in solar inflatable lights. Minimum order of 6.
